'We would be glad to allow you use of our gymnasium for the flying of your radio control units. I am also wondering if there is a possibility to have some of our Social Club Members have a "Try it you may like it -Day". I could advertise in the plant and perhaps we could let both kids (you determine the age level) and parents try to fly some of the easier planes or perhaps helicopters. I am very interested in getting more of our club members involved in things that are carried on here at the club. Many do not know that there is a wide variety of activities that go on. The spinoff of course is you may get more members that would help grow your club. Let me know what you think of the idea above.

should time permit in the event a cancellation is required. '
